Silicon Valley Immersion Program 2020

Company Visits - examples

Intel Corporation is a multinational corporation and technology company headquartered in Santa Clara, California. It is the world's largest semiconductor chip manufacturer by revenue,[3][4] and is the developer of the x86 series of microprocessors, the processors found in most personal computers

Gritstone Oncology is developing tumor-specific cancer immunotherapies to fight multiple cancer types. Gritstone's approach seeks to generate a therapeutic immune response by leveraging insights into the immune system's ability to recognize and destroy tumor cells by targeting tumor-specific neoantigens.

Keiretsu Forum is a global investment community of accredited private equity angel investors, venture capitalists and corporate/institutional investors.

Is a worldwide network of capital, resources and deal flow with 52 chapters on 3 continents. Keiretsu Forum members invest in high-quality, diverse investment opportunities.

Participant feedback

It was a very exciting week at USA!

Great insights from experienced leaders like Hap Klopp and passionate startup founders like Andrew Allen; **workshops on business plan, elevator pitch and design thinking**; visits to Intel and Angel Investor forum.

After the Silicon Valley Immersion Program from University of San Francisco and with the help of our partners from Portugal from PremiValor Consulting, our **project has improved a lot in the business aspect.**

What I take from this experience: **the dedication, passion and desire to impact thousands of people that I felt from entrepreneurs.**

Entrepreneur Victor Hayashi (Winner of EDP UC 2019)

What else to do in San Francisco?

PIER 39

One of the main trends in the city, drawing hundreds of people due to its joy and excitement. The setting, which is reminiscent of an American film, concentrates several stores, restaurants, events and sea lion spectacles.

GOLDEN GATE BRIDGE

Considered one of the seven wonders of the world, it was built in 1937 and links the city of San Francisco to Sausalito. With a total length of 2737 meters, it can be crossed not only by cars, but also by bicycles or on foot.

GOLDEN GATE PARK

This wonderful urban park is one of the most beautiful in the city, extending over four km². Its shape is reminiscent of Central Park in New York, but it has the privilege of being bigger than this and concentrated as disparate as the great Dutch windmill or the stunning Japanese garden.

What else to do in San Francisco?

SÃO FRANCISCO MUSEUM OF MODERN ART

This museum dedicated to modern and contemporary art reopened to the public in 2016 after renovation.

It is currently a must-visit point. You can see up close works by artists such as Frida Kahlo, Gerhard Richter, Andy Warhol and Julie Mehretu and the beautiful outdoor sculpture space.

ALAMO SQUARE

The famous Victorian style houses located in Alamo Square delights any visitor.

Take this tour at sunset, as the late-day light will make the scenery even more idyllic!

What else to do in San Francisco?

TWIN PEAKS

If you like panoramic views, this is the place not to be missed in San Francisco. From here, you will have an absolutely masterful view over the city, as you climb to 300 meters in height.

ALCATRAZ

You'll have to take a ferry to Alcatraz, but the trip will be worth it. This is where one of the best known prisons in the world is located, which housed famous criminals like Al Capone or Machine Gun Kelly.

It was also the first lighthouse in the western United States. Currently, visiting the island also allows you to visit the 'cell house', where you can see how the prisoners used to live.

And much more!
